### Fidelity Life: Growing Together for the good of New Zealand.

Founded in 1973 by two New Zealanders, Gordon and Shirley Watson, Fidelity Life was built on the mission to “do insurance better” for our community. Today, Fidelity Life remains proudly New Zealand owned and operated, protecting the lives and futures of over 299,000 New Zealanders. As New Zealand’s largest locally owned life insurer, they are here for customers when life doesn’t go to plan, with 93% of new claims accepted in the last financial year.

When you choose Fidelity Life, as your life insurer, you’re not just safeguarding your future; you’re contributing to a better future for all of Aotearoa, New Zealand. Their shareholders, Ngāi Tahu Holdings and the New Zealand Super Fund, reinvest profits here at home, uplifting the wealth and wellbeing of one of the country’s largest iwi and growing New Zealand’s ‘super nest egg’ for future generations.

When you choose Fidelity Life, you’re not just safeguarding your future; you’re contributing to a better New Zealand for generations to come.
