# 3. Duty of disclosure. Please read before completing application.

### What you need to tell us.

- 1. Always tell the truth. You must tell us everything that may affect our decision to insure you. Insurance is based on the principle of utmost good faith. Put simply you have a positive duty to provide truthful, complete and correct information about yourself, including your health and medical history. Your duty of disclosure extends to the date the contract of insurance commences. For example, you are required to tell us if you are diagnosed with a medical condition after the date of your application, but before we agree terms of cover we may offer. If we offer to cover you, you will be insured on the basis of the information you have provided.
- 2. Answer questions as fully as you can. Applying for insurance involves responding to a number of questions. Your answers need to include as much detail relating to your current and past circumstances as possible. While this may take time, it is important to ensure that we have all the information we need when we make the decision to insure you and on what terms.
- **3.** If in doubt, tell us. Be aware the law does not distinguish between innocent or deliberate non-disclosure. If you are uncertain of the relevance of any information, please include it on your form because, even if you aren't sure, it may be important to us. If someone else is completing the form on your behalf, it is important that you check that the information is correct and nothing has been left out.
- 4. If you don't know something, say so. If you say that you don't know what the answer is and we think we need more information about your answer to a question so we can offer you insurance, we will need to obtain the information from somewhere else. By signing the declaration and consent, you give us your consent to get this information.
- 5. Know what you're signing. By signing the declaration on your form, you are saying that you have answered all the questions completely and to the best of your knowledge, as well as providing any other information that may influence our decision about your policy. If you are uncertain about any of your answers, ask your adviser or us before signing the declaration. By completing and signing the declaration you are agreeing to be bound to Fidelity Life's terms.
- 6. How non-disclosure affects claims. When you make a claim we may look further into your personal history. If we discover that you did not provide us material information we may avoid your policy and no claim will be payable or at our discretion amend the terms of your insurance policy. It does not matter if the new information is about a condition unrelated to your claim. If we avoid your policy from its inception, this means that you would not be able to make a claim as no policy would exist. In addition, all premiums paid may be forfeited.
- 7. Help us to help you when you need to claim. Depending on what you tell us on your claim form, we might need more information to make a decision about your claim. We may get this information by calling you, asking you to fill out another form or asking you to have a medical test. Sometimes we will need to get information from other people who may include your doctor, your employer, ACC or other government departments. By signing the consent form you give us the consent to do this.
- 8. Know what are consenting to. We can only request information that we need to assess your application for insurance or for payment of a claim. At all times, you have the right to access the information we hold about you and, if it is wrong, to ask us to correct it.
- 9. Don't be afraid to ask. If there is anything you're not sure of, don't be afraid to ask. Contact your adviser, or phone Fidelity Life on 0800 88 22 88.
